# Protecting East Rosebud was the right decision

4 hours ago

(0) Comments

I wish to thank the entire Montana congressional delegation for their action of introducing the "Wild and Scenic" designation for the East Rosebud river, thus protecting it from harmful development.

Many individuals are to be commended for their efforts over the past several years to educate and bring attention to the public the need for protecting this treasured resource. As messy and frustrating as the process can be, in the end, this is best how democracy works. People from the local and state communities as well as other states and countries came together to voice their love and support for protecting the East Rosebud.

In the end, the beautiful sound of cascading mountain water, an unaltered riparian zone, and a free-flowing river will be maintained in this spectacular mountain canyon.
